

Year 1 Homework Grid

Check it out:

ENGLISH - David Walliams is doing a free audio book every day for 30 days which can be accessed on his website: <https://www.worldofdavidwalliams.com/>

MATHS – Carol Vorderman mathematics tasks for ages 4-11 <https://www.themathsfactor.com/>

Quick maths

Switch your maths brain on and order numbers from smallest to largest. Choose 6 random numbers between 0 and 100 then order them.

For example:

8, 25, 19, 4, 99, 11
(4, 8, 11, 19, 25, 99)

Talk for Writing/ Drama

Become an actor/ actress 😊 Can you star in your own movie? Think about the costume you will wear, the props you will need. Think about getting other people in your house to play the other characters. Don't forget to video it so I can see it when we return to school! You could choose to act out a story you know well or even make up your own! Lights, Camera, Action!

Money Money Money

Time to understand money! If you ask very kindly, an adult may show you some coins so you can feel how they are, compare their size and see their value. Have a go at pretend role-play involving money, perhaps buying things from a shop and working out how much money you will need.

Task:
What coins could I use to pay for a 2p lolly?

How many different ways can I make 10p?

Stay safe

You may have seen lots of posters in people's windows as you have been enjoying our daily walk. Why not make your own 'Stay Safe' poster and display it in your window.

Teddy hunt

Lots of people are putting a teddy in their window so when children go on their daily walk they can go on a teddy hunt and see how many they can spot! Go pop one in your window and play the game.

Phonics

Can you play teachers. Why don't you be a phonics teacher and test your parents. Use sounds-write to help them say the sounds and read the following words:

Seed (s ee d)
Me (m e)
Meat (m ea t)
Eve (split spelling)
Happy (h a pp y)

Spot the punctuation!

Look at things with writing on in your home such as magazines, cereal boxes and labels. Can you find any question marks, full stops, capital letters or exclamation marks? Why are they there?

Spellings

Can you practise spelling these common exception words?

today says were his has love some
friend push pull house once

Write sentences using these words.

You could also practise spelling the Months of the Year: January, February, March, April, May, June, July, August, September, October, November and December.

Counting

Can you practise counting in 2s, 5s and 10s to 100? If you want to make it extra tricky why not try and do it backwards.

Science

Can you design your own species of dinosaur. The dinosaur can be a herbivore, carnivore or omnivore it is up to you! Once you have

Seasonal changes

Last time you looked at the weather, why not now look more closely at the plants/ trees at this time of year. What do they look like? Have they always

Measurements

Watch the video

https://www.youtube.com/watch?v=b4Ko_SafjQw

Can you get 4 glasses and make

1) Empty

Get the adults in your home to test you!

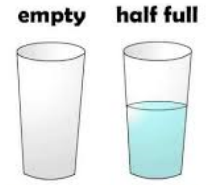

invented your dino species make sure to tell me what it looks like? What it eats? Where is its habitat?

looked like this? Find a nice flower/tree and sketch it!

- 2) Full
- 3) Half full
- 4) Almost empty

Label each glass and take a photo!

Get creative!

On your daily walk, you will find lots of materials you could use to get arty with! Remember what your teacher looks like?

Collect items on your walk and create your teacher at home.

Stones make excellent eyes and leaves are excellent for creating hair!

Good Luck!

Stay Active!

You are about to become animals! You have 30 seconds to move around the home the way animals do.

I want you to move like a monkey (30 seconds)

Move like a snake (30 seconds)

Move like a T-Rex (30 seconds)

Move like a snail (30 seconds)

Move like a kangaroo (30 seconds)

Baking and secret maths

Why not create something yummy and practise your maths all at the same time! When baking it is really important to carefully measure out ingredients. Too much or too little and it will taste a bit yuck! Help an adult measure out the ingredients to make a nice treat!

Work hard, be kind and most importantly...

Stay safe!
