Autumn 2

A message from the staff

Thank you for your support in listening to your child read every day for just 10 minutes, this helps a great deal with their learning in school.

We have a times tables assessment at the end of year 4 so if you could help them to learn their table and encourage them to learn them using Time Table Rockstars, then this would be very helpful.

The children have worked very hard last half term and we are looking forward to seeing more good work.

Miss Pearcy

Looking back on our first half term...

This half term we will be learning...

What happens to the food we eat?

How does climate influence our world?

Children are building on knowledge of the human body and nutrition and how to keep healthy by learning about the digestive system. If you follow the link [HERE](#) to our website, you can view the detailed overview of learning.

We will be developing our learning about animals and habitats and beginning to think about how wider environments influence animal populations and food chains.

We are getting to know the stories by Drew Daywalt [HERE](#) is a video of the story Beegu. Find out more about the author [HERE](#).

Find out more about the digestive system by clicking [HERE](#) to learn more on the BBC website.

School Lunch

Just a reminder that the school lunch menu can be viewed on our school website [HERE](#) should you want to talk to your child about their food choices each day.
