Summer 2

### A message from the staff...

Wow! What a busy half term we have had! It has been lovely to see the sunshine a little bit more over the last few weeks and we have been making the most of it with our National Walking Month Challenge.

Which class will walk the most laps of the playground?

Everyone has been working really hard and all the staff in Year 3 would like to thank you for your continued support this half term.

## Looking back...

## This half term we will be learning...

### What does a map of my town look like?

This topic is great in the Summer term as it allows us to 'get out and about' in our local area. The children will be exploring the local area and learning how to draw simple maps with the use of keys.

They will also explore the idea of how local land use has changed over the years. Any memories of our local area and how it has changed over the years would be gratefully appreciated if you could share them with your child.

As part of our learning in Art we will be studying local artists such as Lowry and McKenzie Thorp. The children will be recreating famous pieces from these artists using a range of materials such as pastels and paint.

During our maths lessons we will be securing our understanding in place value, number facts, multiplication and division facts. Please remind your child to practise the times tables every single day.

As always, if you have any questions or concerns please get in touch with your child's class teacher using the email address at the top of the newsletter.
