Summer 2

Message from the staff...

Wow! What a busy term we have had! It has been lovely to see the sunshine a little bit more over the last few weeks and we have been making the most of it with our National Walking Month Challenge. Which class will walk the most laps of the playground? Everyone has been working really hard and all the staff in Year 2 would like to thank you for your continued support this half term.

Looking back on last half term...

This half term we will be finding out...

Our topic question this term is: *What is a Micro-Organism?*

In Science we will be continuing our work on animals and learning about the life cycles of frogs and butterflies. We will also be taking about where different animals live., finding out about what they eat and we will be heading into the wild garden for a mini beast hunt! To find out more about animals and min-beasts click [HERE](#).

In Geography, we will be doing some fieldwork and putting our map skills to the test—following and drawing our own maps of the school using different symbols and keys. There are some great videos about fieldwork [HERE](#).

As part of our learning in Art we will be looking at Impressionism and comparing the artwork of Van Gogh and Monet before recreating one of their pictures ourselves using paint.

During our English lessons we will be learning more about our picture book author David McKee and writing our versions of Little Red Hiding Hood. You can watch the story of Elmer [HERE](#) and Little Red Riding Hood [HERE](#).

As always, if you have any questions or concerns please get in touch with you child's class teacher using the email address at the top of the newsletter.
