Spring 2

## Message from the staff...

Welcome to a new half term.

This term we will be encouraging the children to develop independence and resilience, as well as promoting mindfulness and good thinking skills.

Last half term we were delighted with the amount of children who were using seesaw to upload their homework. If you need help with accessing Seesaw, please ask.

## This half term we will be learning...

### Houses and Homes

We will be looking at different types of homes and the materials they are made from.

We will be talking about materials, and thinking about how and why they are used.

We will be talking about the features of our local area and learning about the landmarks of Middlesbrough.

We will be continuing to learn about numbers in depth! We ask parents to help by encouraging children to learn the number stories up to 5 including both addition facts and subtraction facts.

We will be talking about which places are special and why.
