Summer

A message from the staff

The children have been working extremely hard. This term we will be making the most of the sunshine during National Walking month and competing against other classes to complete the most laps of the playground. We also have a visit to Sunderland theatre to look forward to this term!

This term we will be learning...

Do animals and plants start life as an egg?

This half term our topic is focused around science and we are learning about life cycles. We will be learning about the different types of animals, the life cycle of plants and animals and metamorphosis. In art, we will be looking at different artists (Robert Hooke, Rosalind Monks and Joel Armstrong). Our music work will be all about traditional music.

Our author of the term is Michael Foreman!
