

Dear Parent or Guardian,

We hope this letter finds you well, please accept our offer of a **FREE** flu vaccine for your child.

Children's flu vaccine

The children's nasal spray flu vaccine is safe and effective. It's offered every year to children to help protect them against flu.

Children can catch and spread flu easily. Vaccinating them also protects others who are vulnerable to flu, such as babies and older people.

The vaccination is **free, safe, and quick**, and in most cases is given by a painless spray up the nose. For those children who the nasal vaccine is contraindicated or parents/guardians who object to the nasal vaccine on the grounds of porcine gelatine content, an alternative vaccination (injection) is available.

Please complete the online link E-Consent form for your child following the link below:

<https://nhsimms.azurewebsites.net/session/09072518>

Please complete by **Friday 20th October 2023** if you would like your child to receive the flu vaccination. If you do not wish your child to take part, please ensure you complete the form to withdraw your child.

If you have any queries about the national flu program, please telephone us on **0333 358 3397** and one of our specialised team will be happy to assist you further.

RECOMMENDED Nasal Flu Vaccine

Non-Porcine Child Flu Vaccine
offered for dietary and religious
purpose.
