Spring

2024

Welcome back. We hope that you all had a lovely break.

We are very impressed with how the children have settled back into their learning. The children have been working hard in all of their lessons and are all really excited to go swimming this half term.

If parents have any questions, please don't hesitate to contact us.

The Y2 team.

Learning

As well as talking about places we have been in the world, we will be looking at the difference between a continent and a country. We will be learning about explorers and finding out what Captain Cook saw when he arrived in Australia and what it look like now?

We will also be finding out about Neil Armstrong and why was he significant. If you want to learn more why not start researching at home?

In science we will be Identifying and naming a variety of common animals including fish, amphibians, reptiles, birds and mammals. We will be learning to identify and name a variety of common animals that are carnivores, herbivores and omnivores.

We also need to be able to say which part of the body is associated with each sense.

Reading books

Thank you for reading with your child every night and for making a note in your child's reading record.

How you can help - Please continue to support by checking on Seesaw for your child's weekly homework. A big thank you for supporting your child with learning their spellings.
