Summer

Message from the staff...

This term we will be encouraging the children to develop stamina and perseverance. There will continue to be a big focus on reading, so please ensure children have their reading books in school every day and please help your child to read at home each evening. Hopefully we will be able to enjoy warmer weather and give the children lots of opportunities to explore nature and to continue to enhance their physical development.

This term we are learning about...

We will be looking at different types of animals and plants.

We will be investigating different types of animals and their habitats including looking at pets, farm life, jungle animals and creatures that belong in the sea.

We will be growing sunflowers and looking at the life cycles of different living things.

We will be looking at Van Gogh's "Sunflowers" masterpiece and creating our own versions of it.

In June and July, we will be finding out about different types of transport on land, on sea and in the air. We will be finding countries around the world using maps, atlases and globes. We will be exploring maps and learning how to draw our own. In our creative work we will be learning about weaving.

New this term... Polyino an online reading app for you to share stories with your child. Please log onto Seesaw to follow the QR link, families are able to change the language so everyone can enjoy sharing a book!
